

VI° AESTHETIC PLASTIC SURGERY COURSE

“ADVANCED COURSE ON REJUVENATING SURGERY OF THE FACE”

May 27th - 29th 2011
Salò, Lake Garda

Topics covered:

Face lift, Midface lift, Blepharoplasty,
Canthopexy, Fat transplantation
Live surgery from Villa Bella Clinic

Faculty:

F. Benslimane, P. Berrino, C. Botti, G. Botti,
G. Bonavolontà, S. Capurro, A. Cella, L. Clauser,
A. Grisotti, A. Gualdi, P.F. Nocini, M. Pelle,
F. Prego, F. Santanelli, C. Stan, A. Verpaele

- Faculty members will include leading plastic surgeons, who are experts in facial rejuvenation. They will present their point of view based on personal experience, and proven strategies, rather than commercial imperatives.
- Focus of live surgery and presentations will be on surgical contouring and volume enhancement.
- During live surgery, you will have the opportunity to observe and interact with the experts during 12 major operations.
- The Villa Bella Course is often completely booked weeks in advance. Please ensure that you register your name in good time to avoid disappointment.

Welcome

Dear Colleague,

Once again, the Villa Bella Course will be held from May 27-29, 2011 in Salò, a stunningly beautiful town on the shores of Lake Garda, Italy. The seminar will present comprehensive coverage of the most advanced techniques and concepts in facial rejuvenation. It will focus on live surgery-there will be 12 major operations-as well as practical and didactic lectures and video presentations. A wide range of topics will be covered that will enhance your professional development and continuing medical education. The latest trend-setting techniques for facelift, blepharoplasty, and fat grafting will be demonstrated in great detail. An outstanding local and international faculty will illustrate the most up-to-date procedures and the participants will have the ability to communicate with all the lecturers and surgeons as direct involvement will be expected and welcome. Surgical rejuvenation together with volume enhancement (fat, fillers, implants) represents the most effective way to reshape the ageing face. Attending this course will inform you on the newest and most interesting techniques in the field. We will delve into the most advanced techniques for blepharoplasty, midface and cervico facial lifts. Various panels will treat the recent evolution of fat grafting and the newest devices developed to perform this operation, including fat harvesting, preparation, and fat-transfer. Special topics, such as the treatment of exophthalmous, hard-tissue shaping in facial aesthetic surgery, minimally and non-invasive techniques, will also be covered. Panels will also discuss controversial areas, the limitations to techniques and procedures, in addition to complications and patient safety. Come and join us.

Programme

Friday 27 May 2011

08.00 The mayor of Salò welcomes the course attendants

08.10 Introduction - G. Botti and M. Pelle

The new blepharoplasties

Via Pagliano, 37 - 20149 Milano

Lake Garda offers breathtaking scenery as well as some of the best restaurants in the North of Italy. Salò, where the course will be held is on the West bank of the Lake and boasts the longest promenade on Lake Garda. The gastronomic aspect is always taken into consideration during the course and to give the participants ample opportunity of trying different dishes, lunches are served in a dine-around style using local restaurants. Coffee breaks are served by the lake, under the arches of the Salò Town Hall and are catered by the finest pastry chef of Lake Garda.

A memorable gala dinner is always organized for the course.
